# Is 20<sup>th</sup> Century Governance

# leading us into the abyss?

## → Step 1: ESG Trends

# → Step 2: ESG in Insurance

# Step 3: Two Challenges

# 6 Disruptions that cannot be ignored

# Digital technologies

( ) Z

# **Digital Transformation**

 Changed consumer behaviours

Changed employee
 expectations and
 behaviours

### Empowered investors

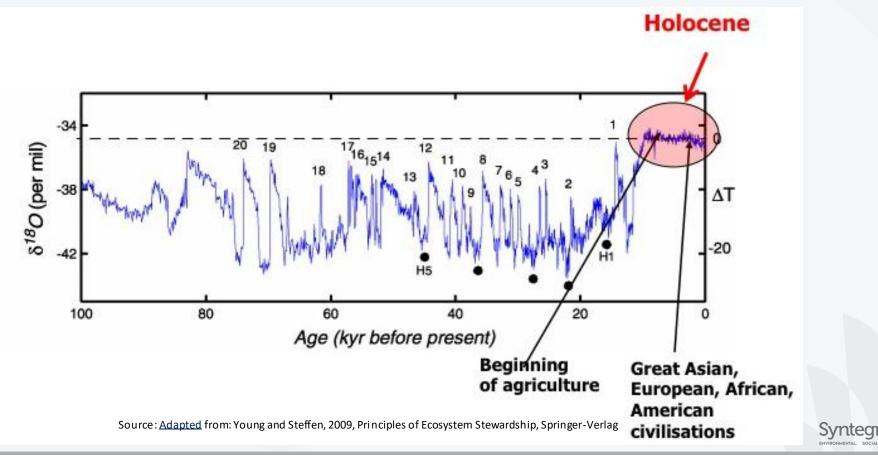

ESG as a Business Model for SMEs by Mark Fenwick, Tronel Joubert, Sanita van Wyk, Erik P. M. Vermeulen :: SSRN

# Natural Environment

26-1.4

# 10,000 years of stable temperature

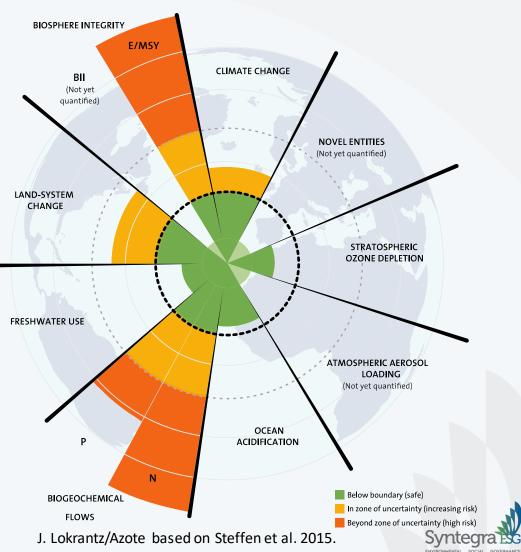

#### From Holocene to Athropocene

### **Planetary Boundaries**

- → 9 processes that regulate the stability and resilience of the Earth system
- Crossing these boundaries increases the risk of generating large-scale abrupt or irreversible environmental changes

Planetary boundaries - Stockholm Resilience Centre

# 2 degrees Celsius is too much

- Michael Taylor, Professor of Climate Science and Dean of the Faculty of Science and Technology at The University of the West Indies (The UWI), Mona Campus
- 2 degrees Celsius is too much for Small Island Developing States (SIDS).
- Even at 1.5 degrees Celsius, the islands of the Caribbean "are only guaranteed half a chance of a liveable future."

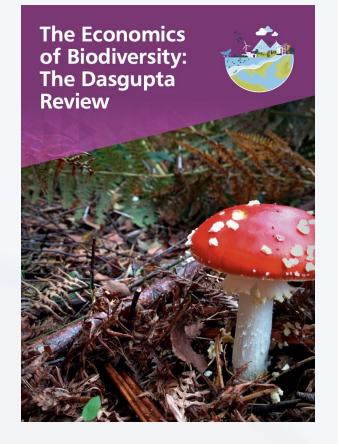

- → According to the <u>2018 report by the Inter-governmental Panel on</u> <u>Climate Change</u>, a 1.5 degrees C of global warming would cause coral reefs to decline by 70-90 percent.
- → "<u>A 2-degree warmer world would lose more than 99 percent of its</u> <u>corals.</u>"
- → 2021 the Global Coral Reef Monitoring Network <u>report</u>:

### between 2009 and 2018 the world lost 14 percent of its corals.

PowerPoint Presentation (edelman.com)

#### 2022 EDELMAN TRUST BAROMETER

Methodology

27-market global data margin of error: General population +/- 0.6% (n=31,050); half-sample global general online population +/- 0.8% (n=15,525).

Country-specific data margin of error: General population +/- 2.9% (n=1,150); half-sample +/- 4.1% (n=575).

#### Annual online survey in its 22<sup>nd</sup> year

Fieldwork conducted: Nov 1 – Nov 24, 2021

28

#### countries

respondents

36,000+

1,150+

respondents/country

GLOBAL 27 does not include Nigeria\* GLOBAL 22 does not include Colombia, Kenya, Nigeria, Saudi Arabia, S. Africa and Thailand

GLOBAL AVERAGES vary based on the number of countries surveyed each year:

GLOBAL 24 Not asked in China, Russia, Thailand

the sensitive nature of the question prevented this data from being collected in these markets

Other global averages detailed in technical appendix

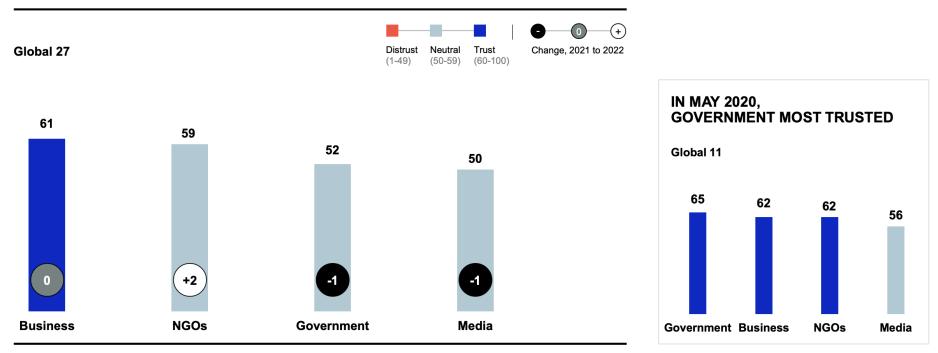

\*To prevent skewing the global results, Nigeria is not included in any global averages because the online population is not representative of the true population

Australia Brazil Canada Colombia Germany India Indonesia Ireland Italy Japan Kenva Malaysia Mexico Nigeria Russia Saudi Arabia Singapore S. Africa S. Korea Spain Thailand The Netherlands

#### Figure 1 Climate-Related Risks, Opportunities, and Financial Impact

# Climate finance must increase by at least 590% - to USD 4.35 trillion annually by 2030 – to meet climate objectives

## Green Bonds in Jamaica

- In June of 2021, the Jamaican Stock Exchange <u>launched its Green Bond Project</u> entitled "facilitating and enabling environment for a Caribbean Green Bond Listing on the Jamaican Stock Exchange."
- The 24 month long project is funded through a grant by the <u>South-Korean-based Green Climate</u> <u>Fund (GCF)</u> and is a collaboration between the Climate Change Division, Ministry of Housing, Urban Renewal, Environment & Climate Change, and the JSE.
- The project objective is to strengthen Jamaica's commitment to climate action as outlined in its Nationally Determined Contributions (NDCs). It has received strong endorsements from the project's partners, the Government of Jamaica, the Government of Dominica and private sector stakeholders

## Two groups of ESG Reporting Frameworks

## **Different in PURPOSE and MATERIALITY POSITIONS of the five 'ESG Reporting Frameworks':** Two distinct categories:

Frameworks designed for an investor audience and with a purpose of managing environmental, social and governance issues as **risks to financial returns** (Enterprise value)

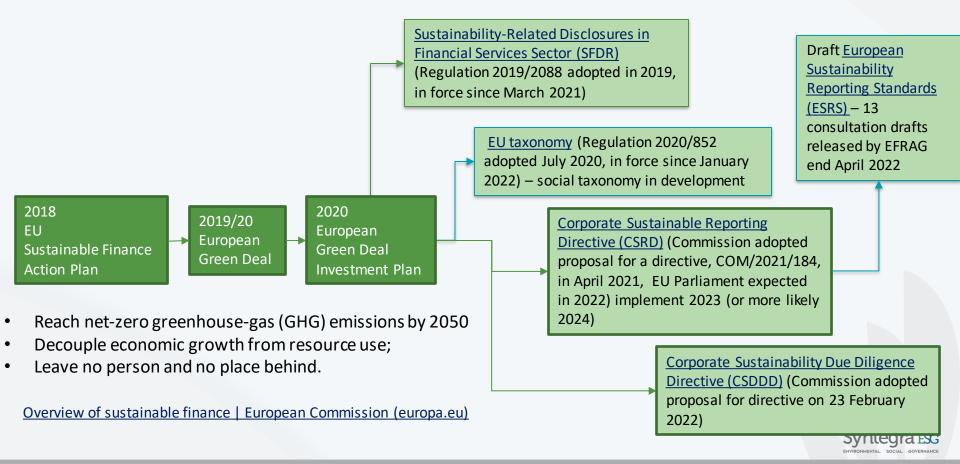

Frameworks designed for a multi stakeholder audience and with a purpose of accountability and advancement towards *sustainable development* 

## EU regulatory framework for sustainable finance

### U N D P

## SDG IMPACT STANDARDS Enterprises

Integrating impact management into Enterprises' decision-making to optimize their contribution to sustainable development and the SDGs

### Figure 1: The SDG Impact Standards

## **General Governance Trends**

### **STAKEHOLDERS**

2019 US Business Roundtable: "We share a fundamental commitment to all our stakeholders".

2020 World Economic Forum (WEF) Manifesto: "The purpose of a company is to engage all its stakeholders in shared and sustained value creation".

### ESG

Target setting and reporting on material impacts on and by an organization of 'Environmental, Social and Governance' matters is increasingly expected by investors and stakeholders worldwide.

### **PURPOSE**

WEF 2021 "The definition of

governance is evolving as organizations are increasingly expected to define and embed their purpose at the centre of their business."

#### Traditional reporting Impact measurement & valuation Value of impacts Impact Outcome Output 64 How do people value the change How does the Ð in well-being due What has changed outcome affect Input to the impact? as a result of the society? What are the business activities? Social costs of Human health, 4 direct results? carbon emissions the environment **Climate patterns GHG** emissions What resources in USD due to production have been used for business activities? Raw materials

### Our Work - Value Balancing Alliance (value-balancing.com)

Organizations need to play their role & here is the foundational instrument

# **Key Points Summary**

## **Enterprise Value drivers**

ESG is connected to cash flow in five main ways (McKinsey)

- 1.Top-line growth
- 2.Cost reduction
- 3.Benefits from subsidies and support from government;
- 4. Productivity uplift
- 5. Investment and asset optimisation

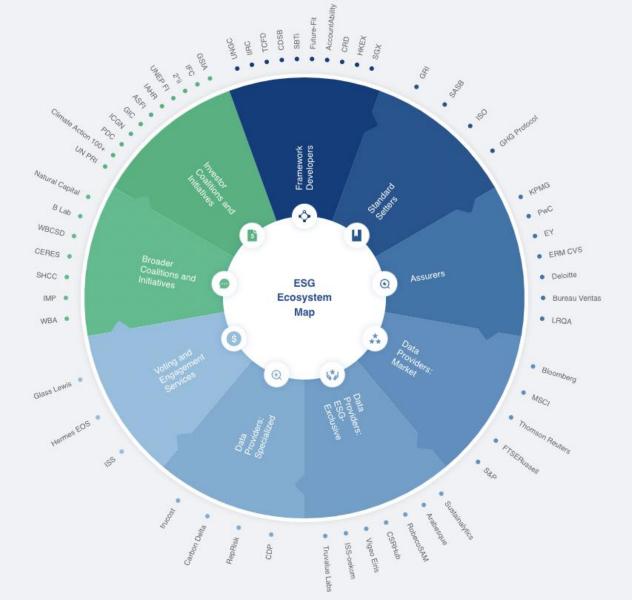

## The Global ESG Ecosystem

## Early ideas of "Insurance SDGs"

Agriculture	<ul> <li>Provide agriculture insurance to X% more of the 230 million uninsured smallholder farmers globally by 2030</li> </ul>
Health	Provide protection insurance and health risk management to X     number more impaired lives by 2030
Natural ecosystems	<ul> <li>Increase area of natural ecosystem insurance coverage by X (surface area / number of ecosystems / types of biogeographic zones / % of protected areas) by 2030</li> </ul>
Motor	<ul> <li>Reduce greenhouse gas emissions by X% in motor portfolio by 2030</li> </ul>
Property (Energy)	Reduce greenhouse gas emissions by X% of energy producers and consumers covered by 2030

## The Gap between #2 (ESV) and #3 (Purpose driven)

### Shareholder(s) vs External Frameworks

"Make the world more resilient" Christian Mumenthaler – Swiss Reyntegra

# Two challenges

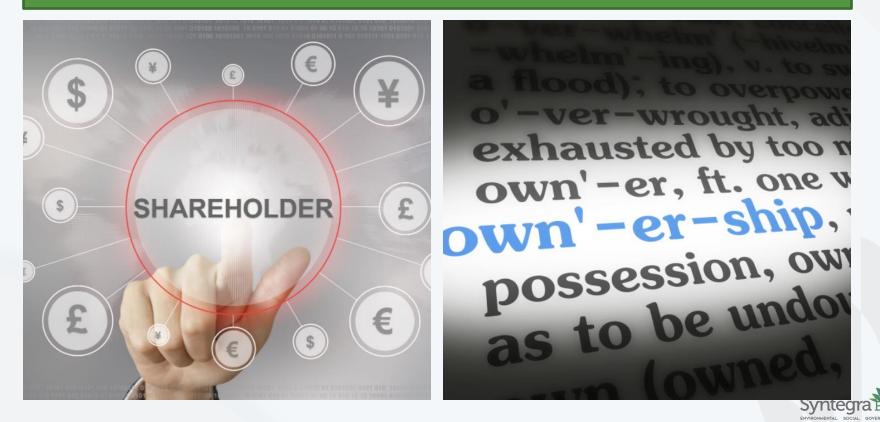

# Company level Decide on path

# **Collective Level** - Collaboration

and the second second

COLORIS DE LO D

# #1 – Company Level Ownership Myth

### Opinion Corporate governance

# Shareholders think they own the company – they are wrong

So whose is the business? No one's, just like the river Thames

JOHN KAY

+ Add to myFT

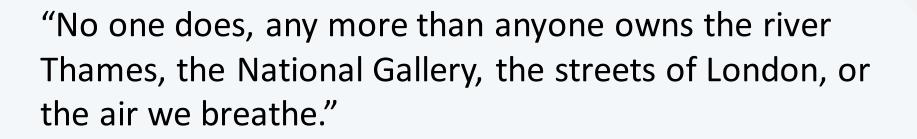

## Kay's three arguments

- → UK Court of Appeal declared in 1948 that "shareholders are not, in the eyes of the law, part owners of the company."
- In 2003, the House of Lords reaffirmed that ruling in unequivocal terms.
- Scholarly legal work by Tony Honoré had identified 11 tests of ownership. The relationship between shareholders and the company satisfies only two conditions, three in part, and six conditions are not met at all.

John Kay

"Yes, the planet got destroyed. But for a beautiful moment in time we created a lot of value for shareholders."

# **Directors' Duty of Care**

The company acts all use the same expression when it comes to the duty of care of directors:

"act honestly and in good faith with a view to the best interest of the company."

> BAR 95.1.a; JAM 174.1.a; SLU 97.1.a; TTO, 99.1.a

## ISO 37000 Governance of organizations - Guidance

# ISO 37000 key stats

Scoping: 2016-2017

Development: 2017-2021

Countries involved: 77 countries

Liaisons involved: 24 liaisons were involved in its development

**Comments**: >1,500 unique comments resolved by WG1

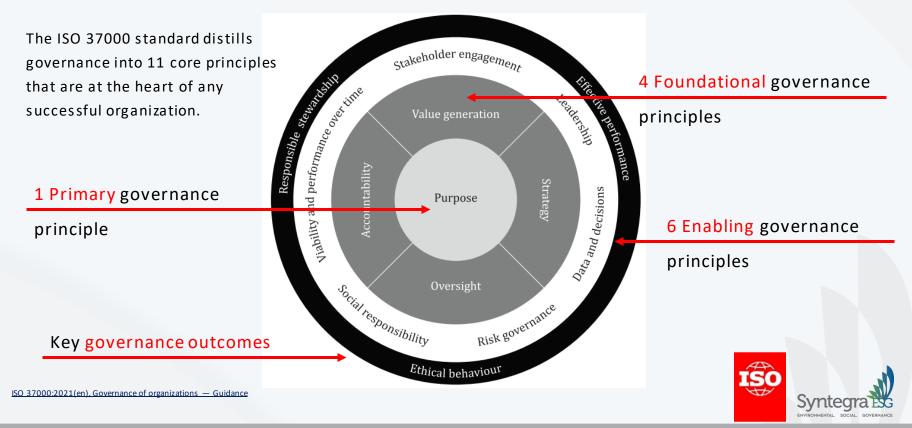

**Approval:** The final ballot attracted 100% approval and all 164 ISO member countries had the opportunity to vote

Publication: The standard was published on 14 September 2021.

### ISO 37000 Governance of organizations - Guidance

## Governance of organizations **Overview**

## **Purpose of business**

"The purpose of the business is to produce profitable solutions to the problems of people and planet, not profiting from producing problems."

<u>Colin Peter Mayer CBE FBA</u> <u>Peter Moores Professor of Management Studies</u> <u>Saïd Business School</u> <u>University of Oxford.</u>

Principles for Purposeful Business | The British Academy

## Better Purpose

You're proud of your business performance

You may even be a leader in your category.

But is your organization positioned to realize it full potential?

Syntegra Esc

## **Better Leaders**

You're proud of your leadership team and the top talent that you have assembled.

Now, how do you fine tune their collaboration so that they are working to one purpose guided by international good practices?

## **Better Brands**

Yes, people love your services but is this brand love fleeting?

# Is your brand in a class by itself?

## #2 Caribbean Collective level

- → Reduce risk
- → Seize opportunity
- Sustainability includes nature, social, and economic dimension
- Greening of financial sector is embryonic – it must and will grow exponentially

## Time to pivot – Insurance as leaders

- Developer of ideas and technologies that allow us to overcome the disadvantages of being small island developing states
- Experts in the business of climate resilience...

### 20201015 IDB Pivot - Keynote by the Honourable Mia Amor Mottley - YouTube

# SYNTEGRA-ESG CAPABILITIES > LEANING INTO PURPOSE

#### FINDING PURPOSE

#### PUR GOV

Find or recalibrate your courageous purpose aligned to your brand through our expert facilitation.

### PURPOSEFUL GOVERNANCE

Maximize the effectiveness of your board of directors by tailoring global governance principles & best practices to your needs.

### PURPOSEFUL ACTIVATION

Make purpose real everyday with expert guidance on how to live it via brand, culture, employee and custome resperience, product, supply chain, government/regulatory, community and environmental impact strategies.

#### SKILL UP TO PURPOSE

Skill-up at your own pace with customized blended learning, training and development tools focused on board, executive, management and team coaching and other topics such as innovation.

#### CERTIFYING PURPOSE

Fast track your attainment of highly prized international governance and sustainability certifications (e.g., B-Corp, ESG, ISO Certification). Impact SDG goals more readily with our expert guidance.

#### TRACKING PURPOSE

Regularly report out your progress with Integrated Reporting (overview of financial performance as well as Environment and Social impact plus Governance). Get better as you go, make course corrections, and build trust with customized KPI tracking tools.

## TRUSTED GUIDANCE

## LOCAL FORESIGHT. GLOBAL INSIGHT.

### Our Leadership Team
