ONLINE WEBINAR

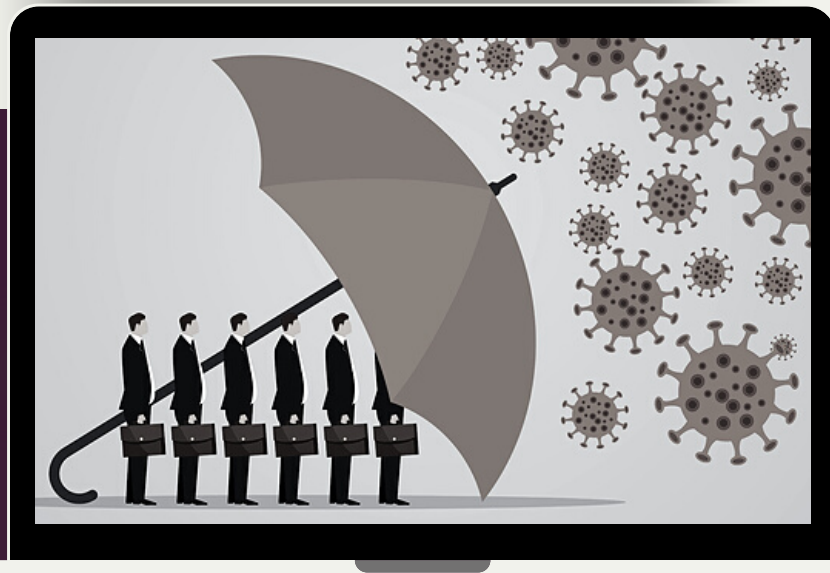

# COVID 19 EMPLOYER'S LIABILITY CLAIMS

## INTRODUCTION

This live online webinar looks at how COVID-19 claims may occur in Employers' liability insurance and the duty of care that an employer has to their employee. As well as looking at the wave of claims that the insurance world is braced for, we will look at the guidance offered and how the pandemic compares to the previous long tail claims for Asbestos. It is a great subject for a lunch hour that hopes to provoke a lively discussion.

## WHO THIS COURSE IS AIMED AT:

Anyone who is working in the insurance industry within commercial insurance. This is a general course aimed at any level.

- What claims may come from the pandemic
- Covid-19 versus Asbestos claims
- What does the future hold?

## JENNIFER YEATES

### FACILITATOR

I am an experienced and passionate trainer who is constantly seeking to add value and increase knowledge to all who attend courses. I have worked as a trainer since 2003 and have been an Insurance Technical Trainer since 2008. My experience and knowledge are underpinned by qualifications in training practice and insurance. I pride myself in being flexible and, as I write all course materials, can specifically tailor the training to the needs of the business. This has resulted in great partnerships with department heads to develop effective training courses that meet the needs and objectives of the business.

Prior to working for insurance brokers, I worked as an account executive, manager & trainer in the newspaper advertising industry. As a trainer, my key objectives were sales & business development as well as advert design. The design aspect has definitely helped hone my skills in creating interesting & engaging presentations.

Having a successful & award-winning track record in a tough selling environment has given me insight to create impactful sales & negotiation training that has proven to be influential in improving sales & client engagement. In the past year, I have successfully converted all of my courses to an online offering. I have been able to rise to the challenge of this new way of working and adapted my style to ensure online courses are engaging, informative and every bit as valuable as face-to-face courses.

I am currently in my second year of a part time Bachelor of Law (Honours) degree.

#### CII Exam Training

I have had great success with CertCII & DipCII exam coaching with feedback and exam pass rates increasingly positive over the past 15 years.

As well as delivering live sessions, I have recorded a number of exam revision offerings to allow learners more flexibility. These have also been well received and proved valuable to the business. I offer a range of courses from 1 hour to full day courses, face-to-face and online
